REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art does anticipate nor render obvious the combination set forth in the independent claims, and specifically does not show that the support member is made of a heat insulating material or that it is comprised of a plurality of lower and upper reinforcing ribs. Adams et al. (US 6,497,255 B1) in view of Nakada et al. (US 4,416,327), the closest prior art, teach(es) most of the structural limitations, but is/are silent regarding the heat insulating material and the lower and upper reinforcing ribs. One of ordinary skill in the art would not have rendered this element/these elements obvious without impermissible hindsight. Thus, the claim(s) are patentable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
